
Box Shadow – Asaan Samjhaav

box-shadow kya karta hai?

`box-shadow` se kisi bhi **box**, **button**, **image**, **div** ke **aas paas ek shadow (saaya)** ban jata hai — jisse wo **3D ya utha hua** lagta hai.

Jaise mobile mein WhatsApp msg box thoda utha hua lagta hai — wahi effect.

Syntax yaad rakho:

```
box-shadow: X Y Blur Color;
```

Part	Kya hota hai?
X (horizontal)	Shadow left/right kitni ho →
Y (vertical)	Shadow up/down kitni ho ↓
Blur	Shadow kitna soft ho ~
Color	Shadow ka rang 🎨

✓ 5 Examples with Explanation

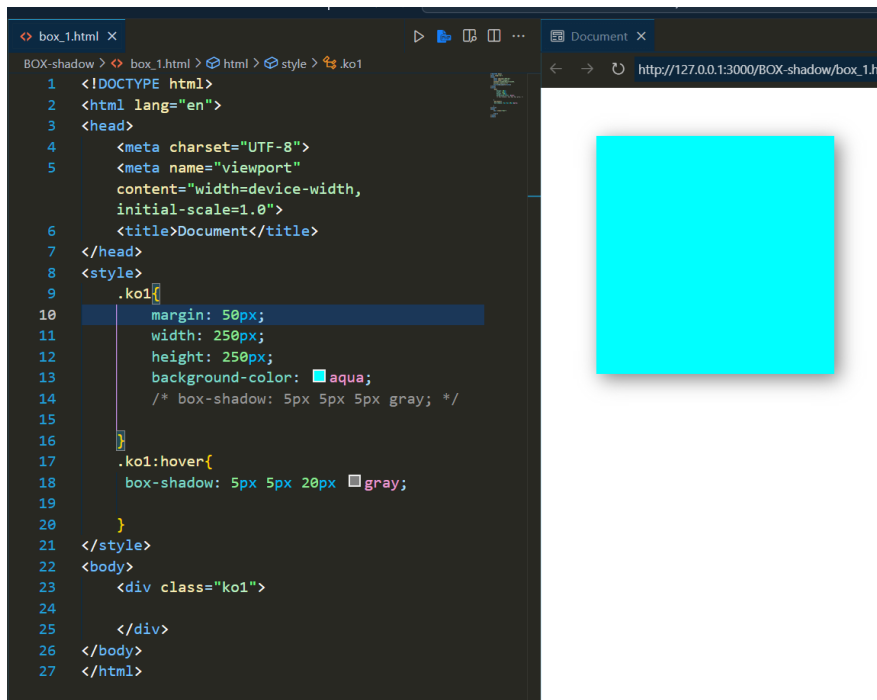

◆ Example 1: Basic Grey Shadow

```
box-shadow: 5px 5px 20px gray;
```

✦ Matlab:

- Shadow right 5px aur bottom 5px
- Thoda blur (20px)
- Grey color

📷 *Looks like:* Box ke niche halka sa saaya

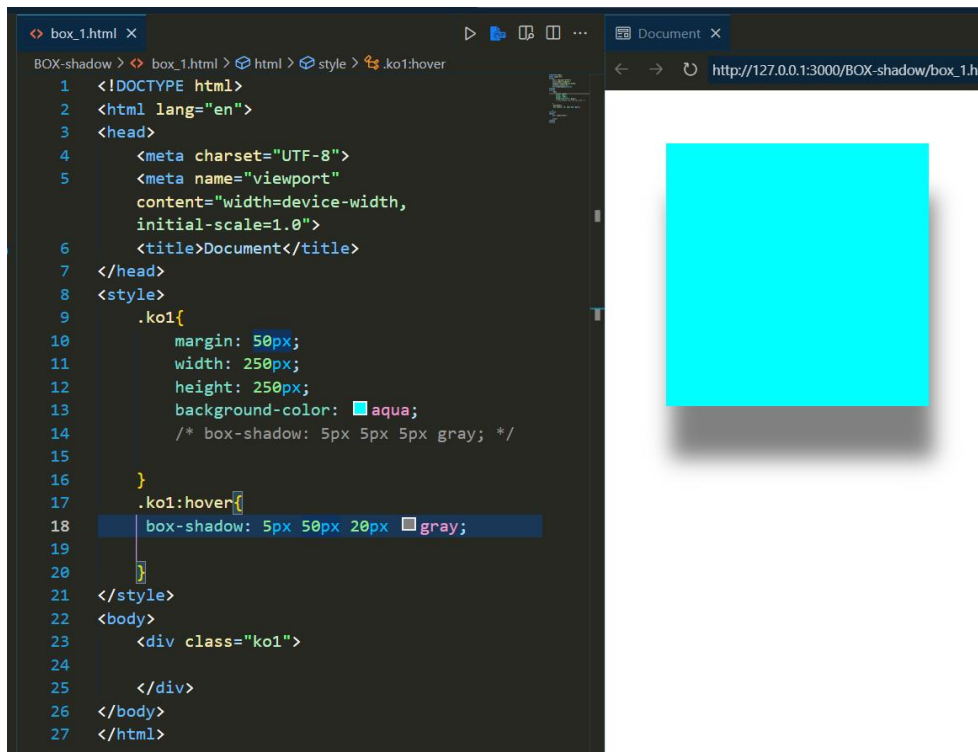

◆ Example 2: Zyada Blur

`box-shadow: 5px 50px 20px gray;`

★ Matlab:

- Same direction
- **Zyada blur (20px)** → aur soft shadow
- Grey color

📷 *Looks like:* Shadow aur wide ho gaya, zyada smooth

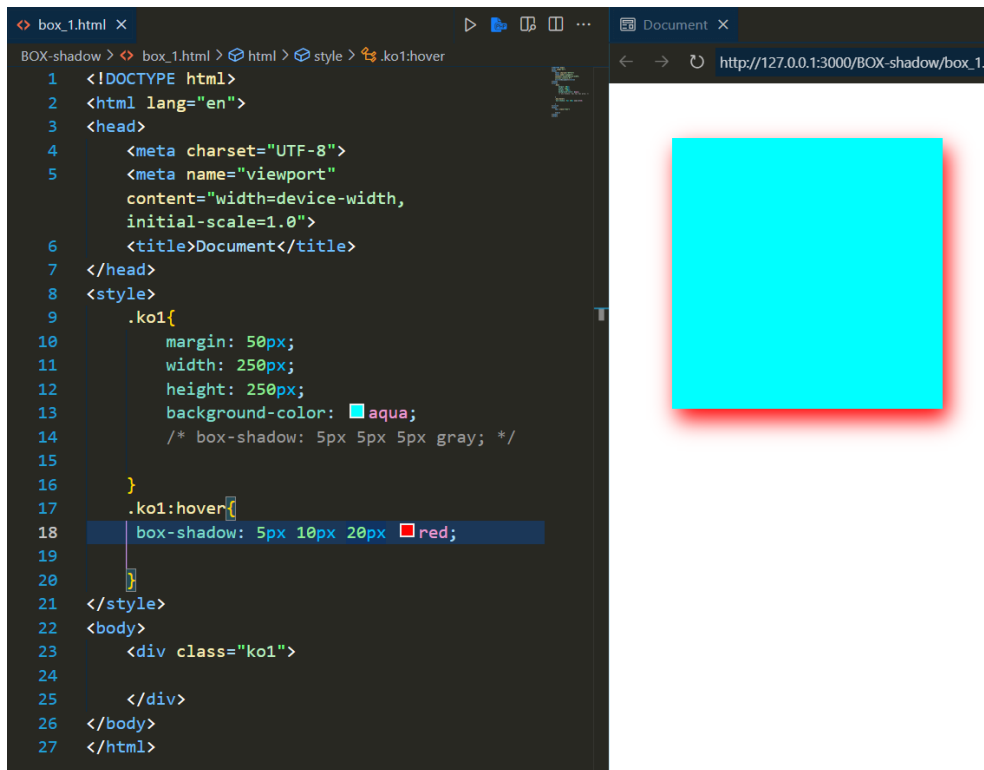

◆ Example 3: Red Bold Shadow

`box-shadow: 5px 10px 20px red;`

✦ Matlab:

- Shadow same jagah
- Color red → 🟡 bold & visible

📷 *Looks like:* Box ke neeche red glow jaisa effect

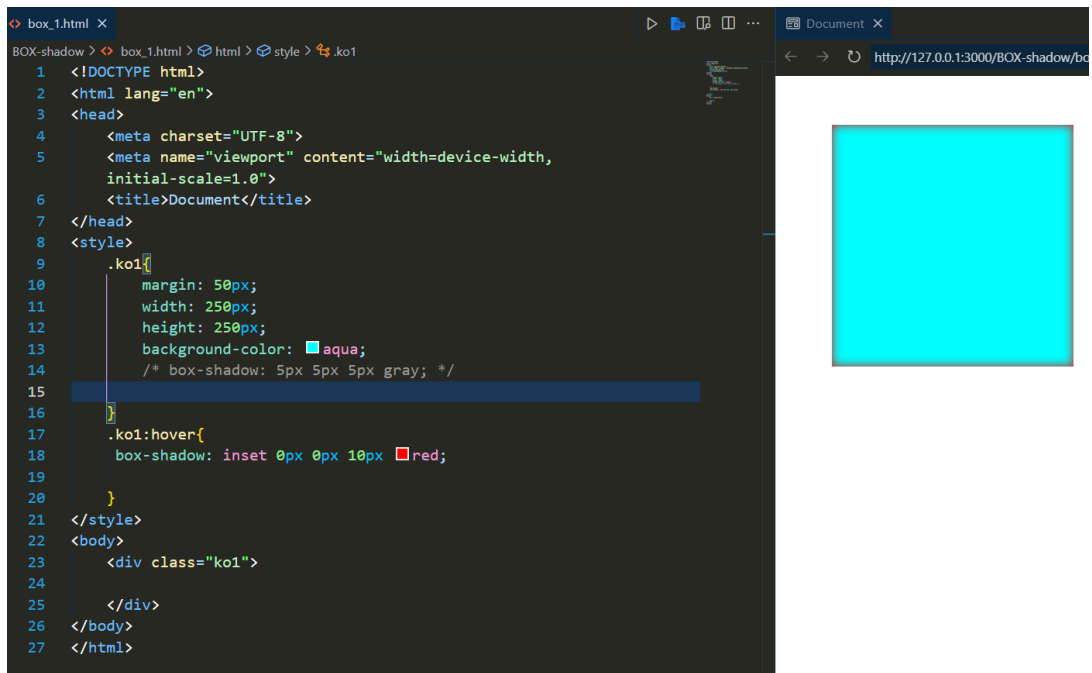

◆ Example 4: Inner Shadow (Andar wala effect)

box-shadow: inset 0px 0px 10px black;

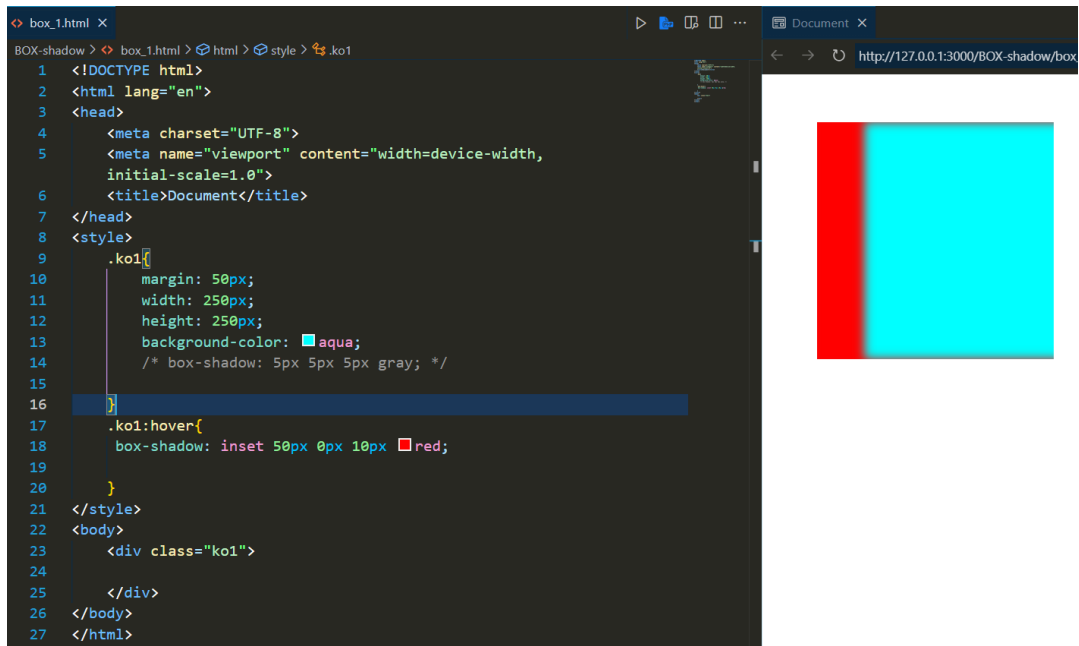

✦ Matlab:

- inset → shadow **andar** dikh rahi hai
- Black color
- 10px blur

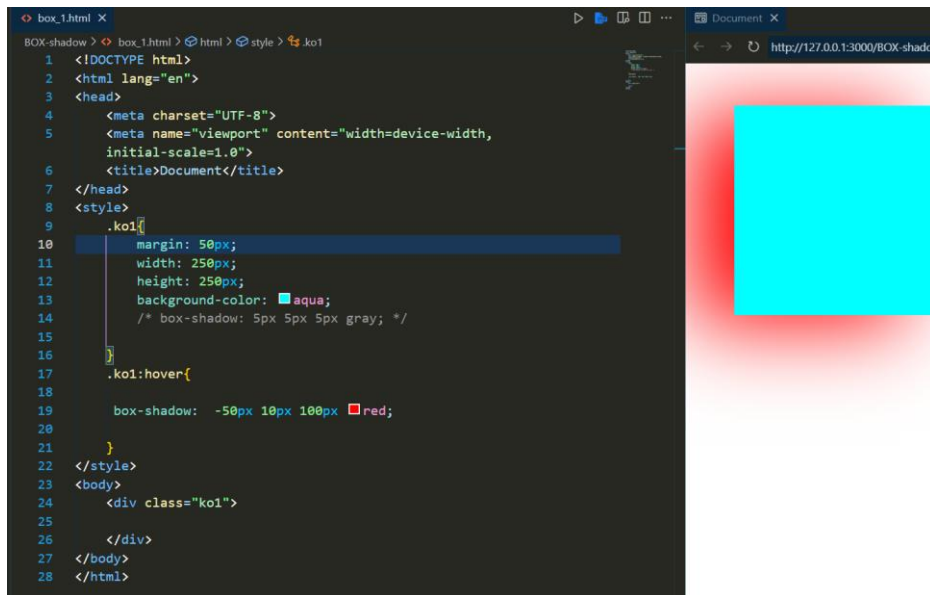

📷 *Looks like:* Jaise box andar dab gaya ho (inner depth)

→2

3 ->

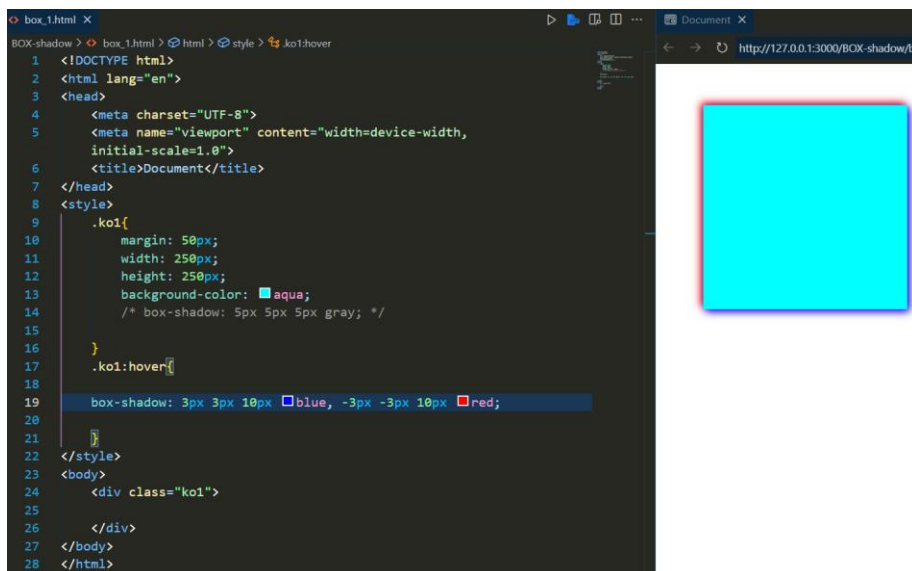

◆ Example 5: Multi-shadow Combo

box-shadow: 3px 3px 10px blue, -3px -3px 10px pink;

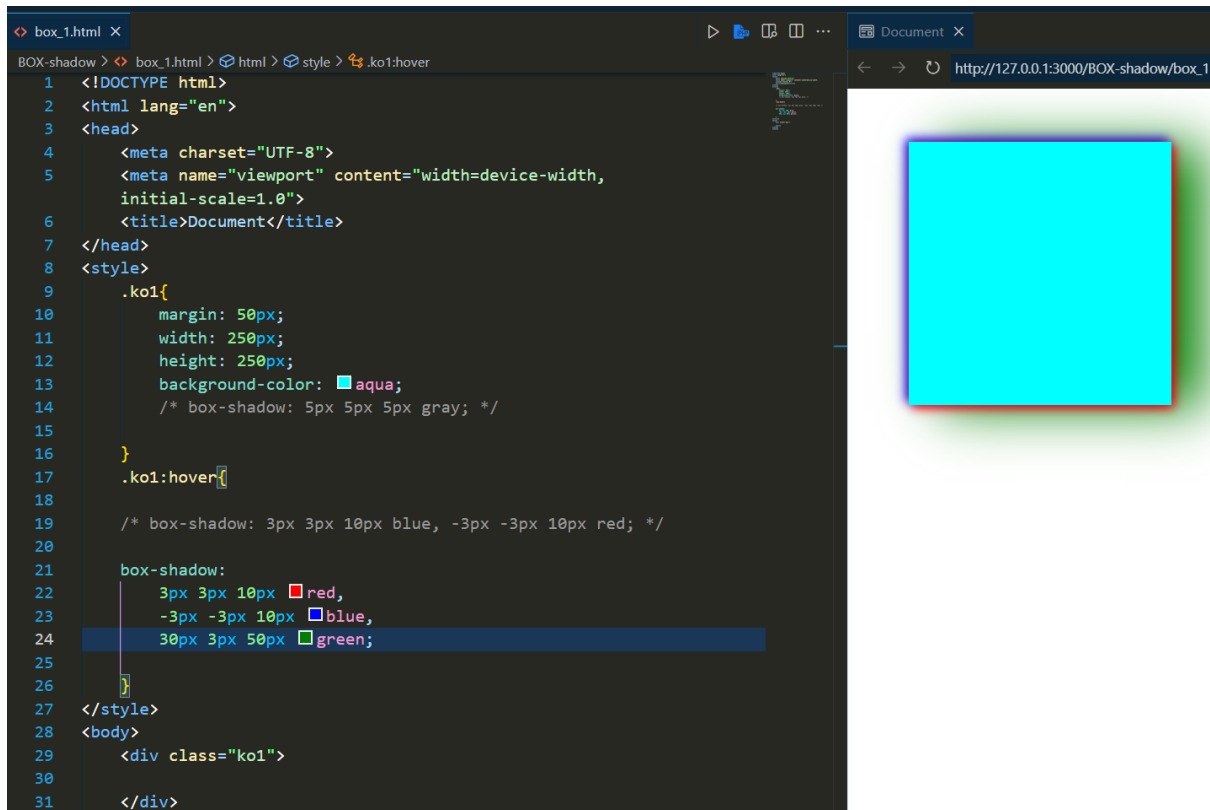

✦ Matlab:

- Ek shadow right-bottom (blue)
- Dusri left-top (pink)
- Cool modern 3D effect

📷 Looks like: 2 direction se shadow aa rahi ho — **glow** feel

Multiple Shadow :

🔗 Final Note (In WhatsApp Style):

- box-shadow → Stylish bana deta hai box ko 😊
- Blur zyada = shadow soft
- Color se mood set karo 🔥
- inset = andar ka effect
- Multiple shadows bhi bana sakte ho 🙌
